

NIL
STEELDOOR

since 2000

Each of our Doors we offer to you has been developed as the best in its field after years of trial and error during production.

NIL |
STEELDOOR

We believe in what we do with our hands and in the creator of our hands.
We believe in Mind, the supreme creation, and in the creator of our mind.
We are proud of the Doors we have produced for Man,
the most precious asset of the universe.
Those who want to start trust and quality from their own door
and for those who believe that the power of reason is infinite.

for you...

:kerak

Noir Desir | N° 01

It represents the desire to infuse the door design with the sophisticated elegance of marble and evokes a splendid decorative aesthetic.

Blu Lucidato | N° 02

The visual ambiance created by the colors of nature in a harmonious and endless texture makes our designs a magical gateway to your homes.

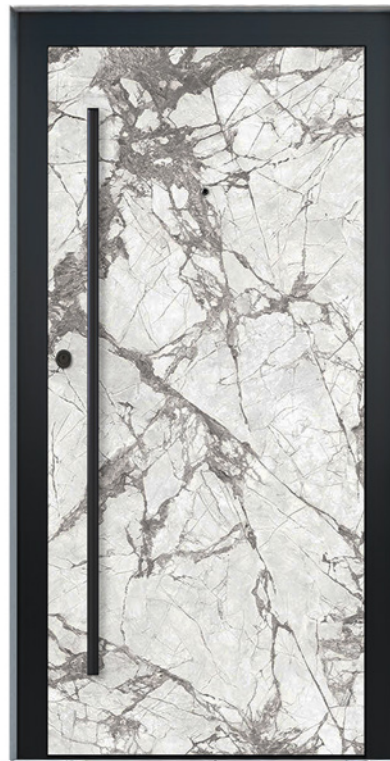

Moro Oxide | N° 03

It inspired a strong and confident design with reference to the sense of experience with the randomness of color transitions.

N° 05 |

Invisible White | N° 04

The faithful reproduction of the technical and aesthetic essence of the material from which it is inspired creates extremely modern and attractive door designs.

N° 06 |

| N° 07

Verde Alpi Bocciardato | N° 04

Verde Alpi reinterprets the splendour of one of Italian architecture's most refined marbles.

The vivid green background and white veining criss-crossing its surface recall the green serpentine of the Alpine forests and the snow-capped peaks of the Valle D'Aosta, from which this highly decorative stone

Sahara Noir | N° 05

The appeal of one of the most striking marbles evokes the chromatic depth of the desert night sky, elevated to a surface of exquisite design

N° 10 |

Verderame | N° 11

To stop time on surfaces, to capture colour at its peak, to simulate the effects that atmospheric agents have on a material that is present in so many natural ecosystems, such as iron: this is the great ambition of Ossido.

FritsJurgens Hinge Systems

FritsJurgens Mentefe Sistemleri

Nil Steel Door olarak Pivot kapularımıza
FritsJurgens menteşe sistemleri ile değer katıyoruz.

As Nil Steel Door, we add value to our Pivot doors with FritsJurgens hinge systems.

System M

System M is a self-closing pivot system and offers adjustable soft-close and hydraulic backcheck.

System M+

System M+ offers control over every part of the door movement for light and heavy pivot doors.

System One

System One is FritsJurgens' most compact pivot hinge – a single pivot point, offering a free-swing pivot door.

System 3

System 3 is a 360° rotating pivot system with various hold positions, ideal for pivoting walls.
